INTERVIEW SUMMARY RECORD

Sir:

Applicants gratefully acknowledge the telephone interview granted on even date herewith regarding the Office Action dated January 12, 2007. The Examiner and the undersigned attorney of record discussed the reference to "new ground(s) of rejection" in the first sentence of the Response to Arguments on page 9 of the Office Action and the citation of the OSI Network model in a Form PTO-892 attached to the Office Action, but not mentioned in the Office Action.

The Examiner explained that the new grounds of rejection referred only to the different mapping of the previously cited patents to the new version of claims 38 and 39, as amended on

December 13, 2006. No new prior art references were relied upon in the rejection of claims 38 and 39.

In particular, the cited OSI Network mode was not being relied upon in any way and applicants need not respond to or address that newly cited reference.
